

Dear Mr. Powell,  
I respectfully request the FCC move to reject NAB's petition 04-160.

Free and open markets encourage competition and give consumers a choice. XM Radio is providing yet another competitive distribution channel for valuable news, entertainment, educational, and public service information.

Please consider NAB's true motives for moving to stop XM from broadcasting Instant Traffic & Weather. You should not feel compelled to embrace their anticompetitive petitions just because NAB is a large organization with an organized force of lobbyists. We consumers have a voice even if we are difficult to mobilize as a unified, coordinated group with similar concerns and needs.

We consumers put our faith and confidence in you, the FCC, to serve the best interests of the consumer and broadcast industry at large by rejecting petitions like 04-160 that are simply designed to protect market turf through artificial forces.

Let the products and services represented by NAB survive on their own merit, not through petitions like 04-160.

Respectfully,

Gary Mawby  
Enthusiastic XM Radio Subscriber
